OBJECTIVE

B.Tech (IT) student at NIT Srinagar (2027) with strong analytical thinking and hands-on development experience. Solved 300+ Data Structures & Algorithms problems, demonstrating solid problem-solving skills. Proficient in MERN stack development and API integration, with experience building scalable web applications and Chrome extensions. Seeking opportunities to apply my skills to create efficient and impactful solutions.

SKILLS

Programming Languages:	C++, C, JavaScript.
Databases:	SQL.
Frameworks & Libraries:	React.js, GSAP, Tailwind CSS.
Backend Technologies:	Node.js ,Express.js, MongoDB.
Core CS Fundamentals:	OOPs, DBMS, DSA , Software Engineering, OS.
Tools and Technologies:	Azure Fundamentals (Basics) , Git, GitHub, VS code, Code Blocks, IntelliJ idea, Jupyter Notebook, Prompt Engineering.
Soft Skills:	Leadership, Communication Skill, Critical Thinking, Problem Solving, Teamwork, Time Management.

EXPERIENCE

[Available here](#)

1. Hackathon

Flipr

July 2025

Bengaluru, Karnataka 560034

- Led a team to achieve All India Rank 1 (Platinum) at the Unstop Flipr Generative AI Hackathon, outperforming 64+ teams nationwide.

PROJECTS

1. KR.AI – Autonomous Meeting Intelligence Agent:([Available here](#))

Built an AI-powered assistant that transforms unstructured meeting conversations into structured, actionable insights using GenAI and LLMs.

- Developed features for cognitive summarization, task extraction, and context-aware decision-making using OpenAI models.
- Engineered a Chrome Extension to intercept live Zoom calls and process them in real-time.
- Integrated RAG-based augmentation for contextual memory across meetings.
- Enabled multi-format input (.mp3, .txt) and one-click sharing to email.
- My Role: Team Lead, Backend integration, Chrome Extension, ZOOM API Integration, Git & GitHub

2. Uber Clone Application – MERN Stack Based Ride-Hailing Platform: ([Available here](#))

Built a full-stack Uber-like ride-hailing application using the MERN stack with scalable backend architecture.

- Implemented secure user and captain authentication using JWT, bcrypt password hashing, and role-based access control.
- Designed RESTful APIs and MongoDB schemas with Mongoose, including token blacklisting and protected routes.
- Followed production-level practices such as input validation, environment variables, Git version control, and API testing with Postman.
- Tech Stack: MongoDB, Express.js, React.js, Node.js.

3. macOS-Inspired Interactive Portfolio Website ([Available here](#))

Built a macOS-style interactive portfolio to showcase projects, resume, and profiles through a desktop-like user experience.

- Designed a responsive macOS-inspired UI with dock, navigation bar, and window system.
- Implemented draggable and resizable application windows using React..
- Developed interactive apps including Resume Viewer, GitHub Browser, Notes, and Terminal (CLI).
- My Role: Frontend Development, UI/UX Design, React Architecture.

EDUCATION

Bachelor of Technology, National Institute of Technology, Srinagar
Information Technology, CGPA: 7.43

2027

Intermediate : Army Public School Janglot
Percentage: 85.8

2022

High School : Army Public School Suratgarh
Percentage: 87.6

2020
